Myalgic encephalomyelitis/ chronic fatigue syndrome (ME/CFS) Research Study

The Aim

- This study aims to improve the understanding of the disorder as well as to look for new treatments for ME/CFS

The Researchers

- This study is a joint venture between Deakin University and Barwon Health
- The study is funded by the National Health and Medical Research Council (NHMRC)

Who can participate?

- Individuals with a diagnosis of ME/CFS
- Individuals with no known disease (healthy controls)

Eligibility to be enrolled in the study

- Male or female, 18-65 years old
- Not currently pregnant
- Not currently enrolled in a clinical trial

Key points for participants

- The study will NOT involve any costs
- Once enrolled in the study, you will receive a gift voucher up to \$40 for any travel costs
- No additional treatment will be provided
- Surveys will be done online at your own pace
- Only ONE appointment needed to take part
- Study involves donating a blood sample
